

Estilad

CELIRAZ INTERNATIONAL

A progressive thinking company driven by our passion to create cutting edge technology and products.

While resting on strong ethical morals, we push boundaries in order to create new standards in the medical aesthetics industry.

Led by a team of experienced executives and researchers, world renowned for their achievements in the medical aesthetics industry. Celiraz international is delivering the promise of effective, safe and long lasting treatments.

Based in Canada and branched throughout the world; mainly Spain, Cyprus and UAE, and represented by other agents around the globe, Celiraz international has been striving since 2015 to create and distribute the best beauty and cosmetic products.

We will always stay on the cutting edge of the medical aesthetic field. We have specialist knowledge of traditional therapeutic biologicals and protocols which we continually strive to optimize and we are at the forefront in the development of bringing new and efficacious ingredients to the market.

ESTILAD TOUCH

To remove fine lines and wrinkles, correction of both cleft lips, can reduce the visible appearance of scarring, also improving congenital eyelid malposition.

A purified, viscous and transparent gel as part of a soft Cross-linked Hyaluronic Acid, the main component which augments facial volume without surgery.

Estilad Touch is a soft tissue agent and filler, it is primarily used in injection into the deep dermis and superficial layer of the subcutaneous tissue of the face, to remove fine lines and wrinkles, correction of both cleft lip, can reduce the visible appearance of scarring also improving congenital eyelid malposition, including eyelid retraction, ectropion, euryblepharon, epiblepharon, and abnormalities associated with a shallow orbit, by injecting of **Estilad Touch** in the pretarsal and/or septal regions of the affected eyelid.

Eyelid malposition

Medium deep grooves

Tear trough

FORMULATION	Resorbable monophasic implant
HA CONCENTRATION	Free Hyaluronic Acid 22 mg/ml
HA ORIGIN	Biofermentation, non-animal origin
COMPOSITION IN EACH ML	Sodium Hyaluronate 22 mg, Sodium Chloride(NaCL) 9.0 mg, Disodium Hydrogenphosphate(NA2hpo4.12h0.555) 20 mg Sodium DiHydrogenphosphate (Nah2Po0.039) 120-4.1 mg Water for injection
PARTICLE SIZE RANGE	150-280 pm
BDDE(PPM)	Not more than 2 pg/g
ENDOTOXINES(EU/MG)	Less than 0.25 eu/mg
PH	7.5-6.5
IMPLANTATION LIFE	6-12 months, depending of depth and location of injection
PACKAGING	1 graduated sterile pre-filled syringes of 1 ml, 1x1 ml and 1 needle 27G

ESTILAD VOLUME

To remove deep facial wrinkles, adjust facial contours and enhance the volume of the lips.

A purified, viscous and transparent gel as part of a soft Cross-linked Hyaluronic Acid, the main component which augments facial volume without surgery.

Estilad Volume is a soft tissue agent and filler, it is primarily used in injection into the deep dermis and superficial layer of the subcutaneous tissue on the face to remove deep facial wrinkles, adjust facial contours and enhance the volume of lips.

Estilad Volume offers the potential to restore youthful contour, shaping and tissue fullness with a minimally invasive aesthetic procedure.

Estilad Volume, highly purified sodium hyaluronate crosslinked with a long chain of molecules form a coiled 3-D hydrophilic matrix network configuration that allows nutrients, oxygen and hormones to pass through freely and to protect the regular biological functions of the tissue.

Lips augmentation

Deep wrinkles

Naso-genal furrows

FORMULATION	Resorbable monophasic implant
HA CONCENTRATION	Free Hyaluronic Acid 24 mg/ml
HA ORIGIN	Biofermentation, non-animal origin
COMPOSITION IN EACH ML	Sodium Hyaluronate 24 mg, Sodium Chloride(NaCL) 9.0 mg, Disodium Hydrogenphosphate(NA2hpo4.12h0.555) 20 mg Sodium DiHydrogenphosphate (Nah2Po0.039) 120-4.1 mg Water for injection
PARTICLE SIZE RANGE	280-500 pm
BDDE(PPM)	Not more than 2 pg/g
ENDOTOXINES(EU/MG)	Less than 0.25 eu/mg
PH	7.5-6.5
IMPLANTATION LIFE	6-12 months, depending of depth and location of injection
PACKAGING	1 graduated sterile pre-filled syringes of 1 ml, 1x1 ml and 1 needle 27G

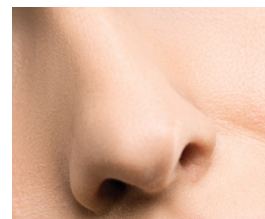

ESTILAD VOLUMAX

To remove deep facial wrinkles and correct nose deformity.

A purified, viscous and transparent gel as part of a soft Cross-linked Hyaluronic Acid, the main component which augments facial volume without surgery.

Estilad Volumax is a soft tissue restorative agent and filler, it is primarily used for injections into the deep dermis and superficial layer of the subcutaneous tissue on the face to remove facial wrinkles and adjust facial contours. **Estilad Volumax** offers the potential to restore youthful contour, shaping and tissue fullness with a minimal invasive aesthetic procedure. **Estilad Volumax** can correct nose deformity. By applying a small amount of filler gradually, physicians have total control over the contours of the nose and reshape it. With **Estilad Volumax**, highly purified sodium hyaluronate crosslinked with a long chain of molecules form a coiled 3-D hydrophilic matrix network configuration that allows nutrients, oxygen and hormones to pass through freely and to protect the regular biological functions of the tissue.

Nose correction

Facial contours

Deep wrinkles

FORMULATION	Resorbable monophasic implant
HA CONCENTRATION	Free Hyaluronic Acid 26 mg/ml
HA ORIGIN	Biofermentation, non-animal origin
COMPOSITION IN EACH ML	Sodium Hyaluronate 26 mg, Sodium Chloride(NaCL) 9.0 mg, Disodium Hydrogenphosphate(NA2hpo4.12h0.555) 20 mg Sodium DiHydrogenphosphate (Nah2Po0.039) 120-4.1 mg Water for injection
PARTICLE SIZE RANGE	1250-500 pm
BDDE(PPM)	Not more than 2 pg/g
ENDOTOXINES(EU/MG)	Less than 0.25 eu/mg
PH	7.5-6.5
IMPLANTATION LIFE	6-12 months, depending of depth and location of injection
PACKAGING	1 graduated sterile pre-filled syringes of 1 ml, 1x1 ml and 1 needle 26G

ESTILAD CONTOUR

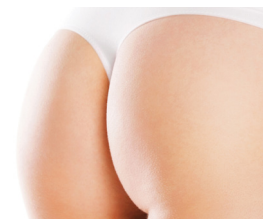

To enhance the volume and appearance of different body areas. Popular areas include hands, décolletage, earlobes and feet

A purified, viscous and transparent gel as part of a soft Cross-linked Hyaluronic Acid, the main component which augments body volume without surgery.

Estilad Contour can enhance the volume and appearance of different body areas. Popular areas include the hands, décolletage, earlobes and feet. **Estilad Contour** is designed for deep tissue implantation and differs in terms of the physical structure of the gel. The depth of the injection may vary from subcutaneous to supraperiosteal administration depending on the treatment. In general, deep subcutaneous administration is recommended. A sufficient tissue cover and support are important parameters to achieve a good esthetical treatment result. A minimum of 1 cm of the skin thickness, including subcutaneous fat, is usually required to achieve excellent results and long lasting effect.

Hands

Buttocks

Calfs

FORMULATION	Resorbable monophasic implant
HA CONCENTRATION	Free Hyaluronic Acid 20 mg/ml
HA ORIGIN	Biofermentation, non-animal origin
COMPOSITION IN EACH ML	Sodium Hyaluronate 20 mg, Sodium Chloride(NaCl) 9.0 mg, Water for injection
PARTICLE SIZE RANGE	1350-500 pm
BDDE(PPM)	Not more than 2 pg/g
ENDOTOXINES(EU/MG)	Less than 0.25 eu/mg
PH	7.5-6.5
IMPLANTATION LIFE	6-12 months, depending of depth and location of injection
PACKAGING	1 graduated sterile pre-filled syringes of 10 ml, 1x10 ml

ESTILAD BOOSTER+

To restore youthful appearance, shaping and tissue fullness with a minimally invasive aesthetic procedure.

A purified, viscous and transparent gel as part of a soft Cross-linked Hyaluronic Acid, the main component which augments facial volume without surgery.

Estilad BOOSTER+ offers the potential to restore youthful appearance, shaping and tissue fullness with a minimally invasive aesthetic procedure. **Estilad BOOSTER+** is a soft tissue restorative agent and filler, it is primarily used in injection into superficial layer of the subcutaneous tissue on the face to correct minor facial lines and appearance of aged skin.

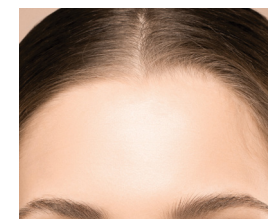

Estilad BOOSTER+ special formulation is suitable when we want to achieve immediate results with less lasting effect. With special bio-resorbable properties, the filler is ultra-soft.

Facial volume

Shaping

Youthful appearance

FORMULATION	Resorbable monophasic implant
HA CONCENTRATION	Free Hyaluronic Acid 21 mg/ml
HA ORIGIN	Biofermentation, non-animal origin
COMPOSITION IN EACH ML	Sodium Hyaluronate 21 mg, Sodium Chloride(NaCL) 9.0 mg, Disodium Hydrogenphosphate(NA2hpo4.12h0.555) 20 mg Sodium DiHydrogenphosphate (Nah2Po0.039) 120-4.1 mg Water for injection
PARTICLE SIZE RANGE	100-50 pm
BDDE(PPM)	Not more than 2 pg/g
ENDOTOXINES(EU/MG)	Less than 0.25 eu/mg
PH	7.5-6.5
IMPLANTATION LIFE	1 session every 3 weeks, 3 times, depending of depth and location of injection
PACKAGING	1 graduated sterile pre-filled syringes of 1 ml, 1x1 ml and 1 needle 27G

ESTILAD HA2%

HA CUBE 3 is a virtual mesotherapy solution with 2% Hyaluronic Acid Cube 3 , an advanced form of hyaluronic acid with increased penetration and efficacy.

PRESENTATION	5 vials x 5 ml, 25 ml e 0,88 fl z.
INGREDIENTS	Hyaluronic Acid Cube 3
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Fine lines and wrinkles
- Anti-aging
- Flaccid & dry skin

Estilad HA Cube 3 HA 2% is a virtual mesotherapy solution with 2 % Hyaluronic Acid with increased dispersion and efficacy. Youthful skin is supported by a hydrated dermis with a complete structural network. As skin ages, dermal endogenic components such as glycosaminoglycans are less renewed, leading to skin dehydration. The skin dermal support is weakened and fine lines and wrinkles begin to appear.

***HA Cube 3** contains Hyaluronic Acid Cube 3 which includes three molecular weights of hyaluronic acid for greater penetration and increased efficacy in improving skin elasticity and skin smoothness, whilst reducing epidermal moisture loss and wrinkle depth.

***HA Cube 3** helps regulate tissue repair, improving the firmness of skin and promoting more youthful looking skin. Hyaluronic Acid is distributed widely in the extracellular matrix of connective tissue and functions as a tissue lubricant, playing an important role in modulating the interactions between adjacent tissues.

***HA Cube 3** moisturises and promotes the correct mechanical protection for tissues and cell layers (corneal, endothelium, and epithelium) thanks to its high viscosity. The elasticity of the solution assists in absorbing mechanical stress and providing a protective buffer for tissues. In facilitating skin healing, it acts as a protective transport vehicle, taking peptide growth factors and other structural proteins to a site of action. It is then enzymatically degraded and active proteins are released to promote tissue repair.

***HA Cube 3** can be mixed with other Estilad meso solutions to offer treatments with combined effect.

ESTILAD COLLAGENA

COLLAGENA is cocktail is an innovative sterile cosmetic solution designed for comprehensive skin rejuvenation. This unique formulation encompasses a potent blend of ingredients that work harmoniously to enhance the biorevitalization and biostimulation processes of the skin.

PRESENTATION	5 vials x 5 ml, 25 ml e 0,88 fl z.
INGREDIENTS	Hyaluronic Acid, Hydrolyzed DNA, Hydrolyzed RNA, Tryptophan, Glutamine, Leucine, Valine, Methionine, Threonine, Isoleucine, Phenylalanine, Tyrosine, Aspartic acid, Glutamic acid, Glycine, Cystine, Niacinamide (Vitamin B3), Pyridoxine HCL (Vitamin B6), Folic Acid (Vitamin B9), Panthenol (Vitamin B5), Thiamine HCL (Vitamin B1), Riboflavin (Vitamin B2), Copper, Tripeptide-1
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Anti-aging
- Dry skin
- Photoaged skin

Central to **COLLAGENA's** remarkable benefits is Hyaluronic Acid, renowned for its exceptional ability to lock in moisture. It provides deep hydration, improving skin elasticity and texture by acting as a moisture reservoir, ensuring the skin remains wellhydrated for a youthful appearance.

***Hydrolyzed DNA and Hydrolyzed RNA** play crucial roles in the rejuvenation process by aiding in the repair and regeneration of damaged skin cells. These nucleotides enhance the skin's biostimulation, allowing it to recover and renew.

***The formulation incorporates essential amino acids like Tryptophan, Glutamine, Leucine, Valine, Methionine, Threonine, Isoleucine, Phenylalanine, Tyrosine, Aspartic acid, Glutamic acid, Glycine, and Cystine.** These amino acids are the building blocks of proteins, promoting collagen production, aiding in skin repair, and improving overall skin health.

***A collection of valuable vitamins, including Ascorbic Acid (Vitamin C), Niacinamide (Vitamin B3), Pyridoxine HCL (Vitamin B6), Folic Acid (Vitamin B9), Panthenol (Vitamin B5), Thiamine HCL (Vitamin B1), and Riboflavin (Vitamin B2),** enriches this solution. These vitamins offer essential nutrition, enhancing skin elasticity and promoting a youthful appearance.

***Copper Tripeptide-1,** a peptide complex, further complements this solution, aiding in skin repair and rejuvenation. It supports collagen synthesis, a vital component for maintaining youthful and healthy skin.

*** The result is a profound anti-aging effect with intense firming properties that boost collagen synthesis and fibroblast activity, fostering healthier, more resilient skin.**

ESTILAD EYEBELLA

EYEBELLA WITH STEM CELLS is a professional eye contouring treatment solution with a triple action on the eye area, reducing dark circles, under eye puffiness and fine lines and wrinkles.

PRESENTATION

5 vials x 5 ml, 25 ml e 0,88 fl z.

INGREDIENTS

Hyaluronic Acid Cube 3, Methylsilanol Mannuronate, PropyleneGlycol, Malus Domestica fruit cell culture extract, Caffeine, Thiamine HCl, Ruscus Aculeatus Root extract, XanthanGum, CaprylylGlycol, Niacinamide, Glycerin, Acetyl Tetrapeptide-5, Lecithin, Acetyl Hexapeptide-30, Sorbic Acid, Arginine.

APPLICATION

Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.

FORMULATION

Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Eye bags, dark circles
- Under eye puffiness
- Fine lines and wrinkles

***Eyebella** contains Hexapeptide Inyline, with a botox style effect - it prevents neurotransmission and thus the contraction of the muscle. The skin becomes smooth and expression lines around the eyes fade.*

*The combined action of **Tetrapeptide Eyeseryl, Ruscus and Caffeine** decongest the bags, due to poor lymphatic circulation or high capillary permeability.

***Estilad Eyebella** inhibits the glycation of collagen, prevents the loss of elasticity and formation of bags, lightening dark circles and rejuvenating the look.

***PhytiCellTec, Stem Cells** of plant origin, soften fine lines and wrinkles, improving skin firmness and tone.

***Eyebella** also contains Hyaluronic Acid Cube 3 which includes three molecular weights of hyaluronic acid for greater penetration and increased efficacy in improving skin elasticity and skin smoothness, whilst reducing epidermal moisture loss and wrinkle depth.

***HA Cube 3** helps regulate tissue repair, improving the firmness of skin and promoting more youthful looking skin.

***Eyebella** also contains **D-panthenol (Vitamin B5) Niacin (vitamin B3) and Thiamine HCl (Vitamin B1)** which aid skin moisture retention and act as antioxidants, protecting the cells from oxidative stress.

HYDRATE, REJUVENATE, AND ENHANCE SKIN'S OVERALL APPEARANCE

ESTILAD FHACE GENESSA

FHACE GENESSA features a powerful blend of high and low molecular weight hyaluronic acid (HA) for comprehensive skin benefits. The 16 mg of high molecular weight HA provides intense surface hydration, creating a plump, dewy appearance. In contrast, the 16 mg of low molecular weight HA penetrates deeply to rejuvenate the skin from within. Additionally, the inclusion of calcium hydroxyapatite (CAHA) boosts collagen production, enhancing skin elasticity and firmness. Together, these ingredients deliver a transformative solution for a youthful, radiant complexion.

PRESENTATION 2 x 2.5 ml applicator

INGREDIENTS Aqua, Sodium Hyaluronate, Calcium Hydroxyapatite Lysine HCL, Proline, Glycine, Phenoxyethanol Benzyl Alcohol, Sodium Hydroxide

APPLICATION Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.

FORMULATION Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Antiaging (moisturizing, nourishing, revitalizing the skin)
- Mimic wrinkles and first signs of aging
- Sagging skin
- Loss of skin firmness and density
- Dehydrated skin
- Photoaging
- Loss of volume

***Estilad Genessa** is an innovative skin booster that elevates your beauty regimen with a powerful blend of ingredients designed to hydrate, rejuvenate, and enhance your skin's overall appearance.*

*** High Molecular Weight Hyaluronic Acid:** This ingredient forms a protective barrier on the skin, delivering intense hydration that promotes a plump, dewy appearance while effectively locking in moisture throughout the day.

*** Low Molecular Weight Hyaluronic Acid:** This variant penetrates deeply to provide hydration at the cellular level. It supports skin renewal and helps reduce the appearance of fine lines and wrinkles, resulting in a smoother and more youthful texture.

*** Calcium Hydroxyapatite (CAHA):** This mineral compound stimulates collagen production, enhancing skin elasticity and firmness. By promoting structural support within the skin, CAHA contributes to a more youthful appearance and helps combat sagging.

*** Proline and Glycine:** These essential amino acids are vital for collagen synthesis and tissue repair. They work synergistically to support the skin's natural regeneration processes, improving texture and promoting a healthy, radiant complexion.

Together, these potent ingredients in Estilad Genessa deliver comprehensive benefits, making it a transformative solution for achieving youthful, revitalized skin. Experience the difference with **Estilad Genessa!**

ESTILAD FHACE CHARM

FHACE CHARM is a sterile cosmetic cocktail that improves skin texture and brightness with intense moisture and balance. It also has anti-aging skincare properties that fill-in and diminishes the look of fine lines and wrinkles.

PRESENTATION	2 x 1 ml applicator
INGREDIENTS	Sodium Hyaluronate, Sodium DNA, Methylsilanol Mannuronate, DMAE
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Firming & hydrating
- Anti-aging
- Rejuvenating

***FHACE Charm** contains highly concentrated **HA, DMAE, Organic Silanol and Polynucleotides**, real sources of hydration and regeneration. **DMAE** is a potent antioxidant and skin anti-aging active. It's characterized by an important action on improving the skin firmness. **Organic Silanol** is firming, restructuring and anti-aging, and **Polynucleotides** regenerate the skin, increasing cell proliferation and tissue repair.*

- * At the heart of **FHACE Charm** solution lies a powerhouse ingredient: **Hyaluronic Acid**, meticulously formulated at a high concentration of **0.5%**. This remarkable compound acts as a moisture magnet, attracting and retaining up to 1000 times its weight in water within the skin. As a result, hydration is deeply replenished, and fine lines and wrinkles are visibly plumped, revealing a complexion that exudes youthful radiance. With each application, our high-concentration Hyaluronic Acid infuses the skin with intense moisture, leaving it feeling supple, hydrated, and revitalized.
- * **FHACE Charm** contains groundbreaking **Polynucleotides** which act as a **DNA fragment**, positively influencing cellular processes and homeostasis without toxicity or contraindications, carrying no genetic information and posing no allergic reactions. This **Sodium DNA** supports skin cell regeneration and repair, paving the way for revitalized and rejuvenated skin.
- * Complementing the rejuvenating effects of **Hyaluronic Acid** and **Polynucleotides** is **Organic Silanol**, a potent ingredient derived from seaweed. Renowned for its skin-firming properties, **Organic Silanol** works tirelessly to enhance elasticity and promote a lifted appearance. By stimulating collagen synthesis and supporting skin structure, this powerhouse ingredient helps to diminish the visible signs of aging, leaving the skin looking firmer, smoother, and more youthful.
- * With the addition of **DMAE**, a precursor to the neurotransmitter, acetylcholine and a powerful anti-oxidant, **FHACE Charm** offers intensive and immediate skin firming effects.
- * Versatile and adaptable, **FHACE Charm** solution is suitable for a wide range of skin rejuvenation techniques. Whether incorporated into needle-free mesotherapy treatments, skin needling procedures, or applied directly to the skin through massage, our solution delivers targeted benefits for unparalleled results. Rest assured, our formula is sterile and rigorously tested for safety, making it the preferred choice for professionals in beauty salons and aesthetic clinics worldwide.

ESTILAD PDRN - STEM CELLS

ESTILAD PDRN is a innovative formulation of cutting edge ingredients including Polynucleotides, stem cells and hyaluronic acid, that deeply hydrates, rejuvenates and revitalizes the skin.

PRESENTATION	5 vials x 5 ml, 25 ml e 0,88 fl z.
INGREDIENTS	Aqua (Water), Sodium Chloride, Sodium Hyaluronate, Sodium DNA, Glycerin, Calanthe Discolor Extract, Xanthan Gum, Gluconolactone, Sodium Benzoate, Calcium Gluconate.
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Moisturizing
- Rejuvenation & restorative
- Revitalizing

Polynucleotides (PDRN) have become a real sensation in the world of cosmetology thanks to their ability to restore the structure of the skin from the inside, increasing the production of collagen.

***Polynucleotides (PDRN)** are potent active ingredients obtained from herring milk, due to the fact that functionally significant indicators of the DNA structure of the milk of fish in the herring family and human leukocyte DNA are very close.

In its structure, **PDRN** is a fragment of a DNA molecule with multifaceted positive properties that affect cellular processes in the human body and homeostasis, with no toxicity and contraindications. It does not carry genetic information and there are no allergic or other negative reactions.

***Estilad's PDRN** has broad ranging benefits including increasing the metabolic activity of cells, stimulate angiogenesis (restore microcirculation in tissues), enhance the moisturizing effect of hyaluronic acid, reduce the level of pro-inflammatory cytokine TNF-a, are highly effective traps of free radicals (protect from damage by metabolites, xenobiotics, temperature factors, etc.), protect against UVB radiation and prevent the development of pigmentation.

***Estilad PDRN** formulation also contains stem cells originating from Canlanthe discolor, an orchid, stimulates essential genes in the maintenance of the extracellular matrix of the skin with increased production of collagen and elastin and the regenerative potential of fibroblasts.

***Estilad PDRN** also contains Hyaluronic Acid which improves skin elasticity and skin smoothness, whilst reducing epidermal moisture loss and wrinkle depth

ESTILAD PULSE POLY-L-LACTIC ACID COMPLEX

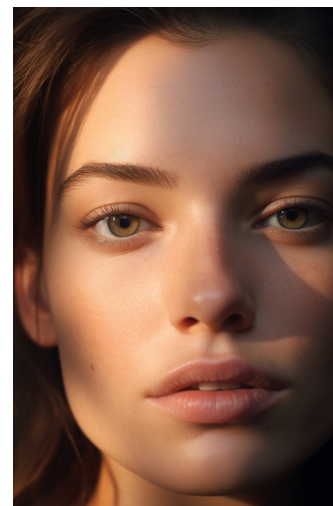

ESTILAD PULSE is a next generation biostimulator designed for full face rejuvenation. It combines 400 mg of ultra-pure Poly-L-lactic Acid (PLLA) with a bioactive solution rich in Sodium Hyaluronate, Glutathione, L-Carnosine, and Penta-peptide-18 to enhance volume, firmness, hydration, and skin tone. Its dual vial system ensures smooth reconstitution and consistent collagen stimulation, delivering natural looking, long-lasting results with minimal risk.

PRESENTATION 1 vial contains 400 mg of pure PLLA powder
1 vial contains 5 mL of a bioactive solution

INGREDIENTS Poly-L-lactic Acid (PLLA), Sodium Hyaluronate, Glutathione, L-Carnosine, Pentapeptide-18

TREATMENT FREQUENCY 2 to 3 treatments
1 month interval

FORMULATION Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Stimulation & generation of collagen under the skin
- Reducing fine wrinkles
- Smoothing of skin texture
- Improves skin hydration, skin compliance, skin elasticity
- Volume replenishment

Estilad Pulse is designed for total skin enhancement, improving tone, firmness, and volume through a dual-action approach. It combines pure Poly-L-lactic Acid (PLLA) with a powerful bioactive solution to stimulate collagen production, deeply hydrate, and refine skin texture delivering gradual, natural-looking results that last.

*It features a dual-vial system that must be mixed before use, combining **400 mg of ultra-pure Poly-L-lactic Acid (PLLA)** with a **5 mL bioactive solution**. The PLLA powder is composed of fine, uniform particles, specifically designed for smooth reconstitution, even distribution, and consistent stimulation of collagen production across the treated area.

What sets **Estilad Pulse** apart is the high purity and ideal particle size of its **PLLA**. This ensures biocompatibility, minimal risk of clumping or granulomas, and predictable, gradual volumization. Once injected, **PLLA** works by activating fibroblasts to restore the skin's underlying structure helping to rebuild lost volume, improve firmness, and redefine facial contours over time. The effects develop naturally over several weeks, delivering natural-looking improvements that appear gradually over time.

*The accompanying bioactive solution amplifies the overall benefit of the treatment. It includes **Sodium Hyaluronate (HMW + LMW)** for hydration, **Glutathione** for brightening, **L-Carnosine** for lifting, and Pentapeptide-18 to reduce expression lines. Together, this formulation boosts skin tone, elasticity, and radiance making **Estilad Pulse** a smart solution for daily use in aesthetic clinics.

ESTILAD MESOBOTOX WITH STEM CELLS

MESOBOTOX WITH STEM CELLS is a professional facial treatment solution created to treat lines, wrinkles caused by facial muscular contractions with anti-aging and biorevitalization effect. Mesobotox with Stem Cells is a professional facial treatment solution with a muscle relaxant action similar to botulinum toxin.

PRESENTATION	5 vials x 5 ml, 25 ml e 0,88 fl z.
INGREDIENTS	Hyaluronic Acid Cube 3 ,PhytiCellTec™ Stem Cells, Organic Silicon, Snap 8 and Leuphasyl peptides
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Lines and wrinkles caused by muscular contractions
- Anti-Aging & Face Lifting

*Mesobotox includes high concentration of the peptides **Snap 8** and **Leuphasyl** , providing powerful anti-wrinkle and anti-aging actions.*

***Mesobotox** targets the fine lines and wrinkles caused by facial expressions, relaxing these in a natural way, to weaken them and reduce their effects. This treatment solution contains Hyaluronic Acid Cube 3 which is designed with three molecular weights to enhance skin penetration, Stem Cells of plant origin, Organic Silicon, Snap 8 and Leuphasyl peptides.

***Snap 8** peptide competes with natural proteins to be positioned in the SNARE Complex, which is destabilised. As a result, it reduces neuronal excitability and, therefore, muscle contraction, fine lines and wrinkles.

***Leuphasyl** peptide couples to the enkephalin receptor and closes the calcium channels. Thus it inhibits the release of acetylcholine in the synapse, reducing muscle contraction and expression wrinkles.

***HA Cube 3** retains moisture in the tissue, firming, adding volume and skin elasticity. Its viscosity provides cohesion of the connective tissue.

***PhytiCellTec Stem Cells** protect longevity of skin stem cells, delaying the senescence of essential cells, increasing the vitality of skin stem cells.

***Organic Silanol** forms part of the macromolecules including elastin, collagen, proteoglycans and glycoproteins.

ESTILAD FHACE ULTIMATE

ESTILAD FHACE ULTIMATE combines high and low weight hyaluronic acid to stimulate tissue remodelling and improves skin laxity on the face, neck and body.

PRESENTATION	5 vials x 5 ml, 25 ml e 0,88 fl z.
INGREDIENTS	Aqua (Water), Sodium Hyaluronate, Hyaluronic Acid, Sodium Chloride
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Skin laxity
- Hydration and Firming
- Rejuvenation

Healthy skin is supported by a hydrated dermis with a complete structural network. As skin ages, dermal endogenic components such as glycosaminoglycans are less renewed, leading to skin dehydration. The skin dermal support is weakened and fine lines and wrinkles begin to appear.

***ESTILAD FHACE Ultimate** contains hyaluronic acid with different molecular weights that allows for greater penetration and effectiveness of this deeply hydrating and nourishing ingredient which firms and rejuvenates skin.

***ESTILAD FHACE** contains a high concentration (3.2%) of purified hyaluronic acid, combining 16mg of high molecular weight hyaluronic acid (1100–1400kDA), with 16mg of low molecular weight (50 – 80 kDA) hyaluronic acid. As a result, we get Hyaluronic Acid of low density and without crosslinking. We have achieved a thermally stabilized natural hyaluronic acid with a duration comparable to a low cross-linking gel.

***ESTILAD FHACE** promotes the correct mechanical protection for tissues and cell layers (corneal, endothelium, and epithelium) thanks to its high viscosity. The elasticity of the solution assists in absorbing mechanical stress and providing a protective buffer for tissues. In facilitating skin healing, it acts as a protective transport vehicle, taking peptide growth factors and other structural proteins to a site of action. It is then enzymatically degraded and active proteins are released to promote tissue repair.

ESTILAD HAIR LOSS

ESTILAD HAIR LOSS is a cocktail solution of vitamins, minerals, amino acids and stem cell growth factors, nutrients selected due to their ability to synergistically combat hair loss by providing good protein biosynthesis, enhancing cell reproduction and energy intake for the hair follicle to remain productive.

PRESENTATION	5 vials x 10 ml 50 mL e 1,69 fl oz
INGREDIENTS	Cegaba, Capilia Longa, Mannitol, Asiatic Spark Extract, Panthenol, Organic Silanol, Troxerutin, Riboflavin, Nicotinamide PP, Biotin (Vitamin B7), Zinc Gluconate, Ginkgo Biloba, Hyaluronic Acid Cube3
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Hair Loss
- Any type of alopecia
- Hair strengthening

Effective for both men and women, **Hair Loss** is a sterile, tri-cologic treatment that acts against any type of alopecia and especially androgenetic and areata. It lengthens the anagen phase, strengthening hair, combating and preventing hair loss.

*In case of androgenic hair loss may be triggered by genetics. There are still three physiological causes for hair loss:

1. Hormonal imbalances, in and around the hair follicle, particularly an excess of hormone DHT (d i hyd rotestosterone)
2. A reduction in blood circulation
3. A deficiency in suitable nutrients

***Hair Loss** contains **Cegaba** which stimulates cell growth and cell proliferation, supporting cell metabolism.

***Capilia Longa** (Stem Cells growth factors) is rich in signaling peptides, creating the optimal micro-environment to reactivate hair growth.

***Asiatic Spark Extract** increases blood supply by reducing the permeability and increasing the resistance of blood capillaries to the area, with an antiinflammatory effect and antimicrobial properties.

***Panthenol** is a precursor of Vitamin B5, which inhibits the production of DHT.

***Organic Silanol** stimulates the synthesis of dermal macromolecules..

***Troxerutin**, a flavonoid derivative of rutin, has a protective effect..

***Riboflavin and Nicotinamide PP** strengthen hair hair and reduce DHT.

***Biotin (Vitamin B7)** stimulates the energy metabolism of cells

***Zinc Gluconate** supports cell immunity

***Ginkgo Biloba** strengthens capillaries, improves microcirculation.

***Hyaluronic Acid Cube3** provides hydration to the cells, retaining moisture, and enables efficient cell to cell communication.

ESTILAD NCTS

ESTILAD NCTS is a professional sterile solution that contains a wide range of nutrients to restore luminosity and vitality of dull, tired skin.

PRESENTATION	5 vials x 5 ml 0.88 fl oz
INGREDIENTS	Hyaluronic Acid Cube3®, Snap8, Hexapeptide-10, Leuphasyl, Glycerin, Mannitol, Potassium Chloride, Sodium phosphate, Sodium Hydroxide, Cyanocobalamin, Hydroxidecyl Ubiquinone, Hydrochloride, Glycine Soja Protein, Sodium Dextran Sulfate, Superoxide Dismutase, Histidine, Sulfate, Ethylexylglycerin, Potassium Sorbate, Acetyl Cysteine, Glycine, Glutamic acid, Calcium Chloride, Hydroxypropyl cyclodextrin, Zinc Gluconate, Sodium Benzoate, Inositol, Taurine, Niacinamide, Pyridoxine HCl, Proline, Folic Acid, Thiamine HCl, Troxerutin, Panthenol, Silanol, Acetylglycyltryptophyl Diphenylglycine, Riboflavin.
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Dull skin
- Flaccid skin
- Fine lines and wrinkles

Estilad NCTS formulated to enhance brightness of skin and improve the tone and texture with an immediate effect in a progressive way.

***Estilad NCTS** treatment solution can reduce aging process, including fine line and wrinkles. **Estilad NCTS** includes a number powerful vitamins and amino-acids, ingredients that rejuvenate skin, by directly accelerating the production of new cells. Additionally facilitating a healthy cellular metabolism, that results in a fresher and younger looking skin. Works as a barrier against oxidants that damage cells. Aging is mainly caused by cell dehydration and **Estilad NCTS** help the skin retain water molecules more easily and keeping it hydrated.

***Snap 8 and Leuphasyl peptides** relaxing muscles by providing BTX effect. Simply reduce lines and wrinkles that may appear due to facial expressions and muscular contraction

***Hyaluronic Acid Cube 3** in high concentration, with three molecular weights of hyaluronic acid for greater dispersion and increased efficacy in improving skin elasticity and skin smoothness, while reducing the loss of epidermal moisture loss and wrinkle depth

***Organic Silanol** is a biological metalloid common in mineral and organic compounds. It activates the intra-adipose process on cAMP, stimulating lipolysis and hydrolysis of triglycerides without affecting the cell metabolism. It is a structural element of connective tissue forming part of the macromolecules including elastin, collagen, proteoglycans and glycoproteins. Organic Silanol plays an important role in regulating cell metabolism and cell division

***Glutathione** a which acts as antioxidants to reduce melanin production, brightening and evening out skin tone.

ESTILAD STOP ACNE

ESTILAD STOP ACNE is a professional, sterile solutions which has been developed to combat both inflammatory and non-inflammatory acne.

PRESENTATION	5 vials x 5 ml 0.88 fl oz
INGREDIENTS	Hamamelis Extract, Calendula Extract, Ginkgo Biloba, Pyruvic acid, Salicylic acid, Melilotus Extract, Asiatic Spark, Artichoke, Troxerutin, Zinc Gluconate, Panthenol and Hyaluronic Acid Cube 3.
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Inflammatory and non inflammatory acne
- Oily skin

***Stop Acne** regulates and lowers pimples, regulates excess fat and sebum, eliminates dead skin and bacteria and provides a powerful antiinflammatory effect, along with a keratolytic action, that helps to normalize skin problems and restore the appearance and tone of the skin.

***Stop Acne** activates the formation of new fibroblasts, recovers the marks and depressions caused by acne, producing new collagen and increasing the production of elastin.

***Stop Acne** contains a number of nutrients to solve a varied aspects of acneic skin conditions:

***Hamamelis Extract** with tannins for skin soothing.

***Calendula Extract** has antibacterial and antiseptic properties.

***Ginkgo Biloba** optimizes the microcirculation of blood, nutrient flow and cleanses the tissue.

***Pyruvic and Salicylic Acid** exfoliate dead skin cells with decongestant action.

***Meliloto Extract** with soothing properties.

***Asiatic Spark Extract** increases blood supply by reducing the permeability and increasing the resistance of blood capillaries to the area, with an anti-inflammatory effect and antimicrobial properties.

ESTILAD WHITENING PLUS

ESTILAD WHITENING PLUS is a cosmetic sterile solution with an immediate action and progressive moisturizing and firming effect on skin.

PRESENTATION	5 vials x 5 ml 0.88 fl oz
INGREDIENTS	Tranexamic Acid, Glutathione, Gatuline Spot light (Sophora extract) , Hyaluronic Acid Cube3®, Panthenol, Kojic Acid, Phitexcell Liquorice (Liquorice Extract).
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Pigmented skin and age spots
- Dull skin

Estilad Whitening Plus, special formula to achieve an intense depigmenting, whitening and progressive antioxidant effect on the skin.

***Hyaluronic Acid Cube 3** with three molecular weights, also provides moisturizing and restorative properties.

***Estilad Whitening Plus** having a great depigmenting capacity, thanks to its formulation with **Tranexamic and Kojic Acid**, combined with the active ingredients **Phitexcell Liquorice** (Liquorice Extract), **Gatuline Spot light** (Sophora extract) and **Glutathione**, provide a powerful antioxidant and whitening effect to even skin tone, with lightening and brightening results. Ideal when treating any type of melasma, hormonal, photo-aging or photo-induced spots.

*** Hyaluronic Acid Cube 3** with three molecular weights of hyaluronic acid for a greater infiltration and increased efficacy in improving skin elasticity and smoothness, while reducing the loss of epidermal moisture and wrinkle depth.

***Hyaluronic Acid Cube 3** helps regulate tissue repair, improving skin firmness and promoting a more youthful looking skin. It is a natural polysaccharide that belongs to the glycosaminoglycan group and having an important structure within the skin. With the ability to bind water molecules one thousand times its weight, retaining moisture in the tissue, firming, adding volume and enhancing skin elasticity.

***The viscosity** provides cohesion of the connective tissue and slows down the ageing process, stimulating fibroblast activity, the synthesis of collagen and other important functions for healthy skin.

ESTILAD ROSY

ESTILAD ROSY is a sterile cosmetic solution meticulously formulated to rejuvenate and restore the delicate skin of the lips. This specialized blend goes beyond the surface, delving deep to rebuild and repair the skin's natural barrier in areas that have experienced damage.

PRESENTATION	5 vials x 5 ml 0.88 fl oz
INGREDIENTS	Hyaluronic Acid, Ascorbic Acid, Ginkgo Biloba Leaf Extract, Troxerutin, Curcuma Longa Root Extract
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Dry lips
- Dull or skin barrier compromised lips

*One of **ROSY's** remarkable features is its potent antioxidant power. This formidable defense guards the lips against the harmful effects of free radicals, promoting a healthier, more luscious, and naturally pinkish appearance. By shielding the delicate lip skin from oxidative stress, this cocktail contributes to a revitalized and youthful look.*

*The inclusion of **non-crosslinked Hyaluronic Acid (HA)** is a key component, and it performs a dual role. It not only replenishes vital hydration but also imparts elasticity to the lip skin. As a result, lips are not only more supple and well-moisturized but also resilient and youthful.

***Turmeric and Vitamin C** take center stage as powerful antioxidants within this cocktail. Beyond their protective benefits, they actively stimulate collagen production, a vital protein responsible for the skin's structure and firmness. Collagen, in abundance, leads to the muchcoveted luminous effect, making lips naturally radiant and appealing.

* Furthermore, **Ginkgo Biloba**, known for its remarkable properties, plays an integral role in this cocktail. It contributes to the rejuvenation of lips, bestowing them with a more youthful and smoother appearance. By enhancing microcirculation, Ginkgo Biloba ensures that your lips receive the nourishment and vitality they deserve.

*In summary, **ROSY** cocktail is a comprehensive solution that goes the extra mile to transform lips. Its antioxidant prowess, coupled with the rejuvenating properties of non-crosslinked HA, Turmeric, Vitamin C, and Ginkgo Biloba, results in lips that exude health, vibrancy, and a captivating natural pinkish glow.

ESTILAD REDUFAT

ESTILAD REDUFAT is a sterile treatment solution for localised adiposity reduction from specific areas of the body. It contains potent and natural, lipolytic, regenerative and detoxifying extracts.

PRESENTATION	5 vials x 10 ml, 50 mL, 1,69 fl oz
INGREDIENTS	Asiatic Spark, Hedera Helix, Melilotus Extract, Carnitine, Caffeine, Artichoke, Organic Silanol
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Adiposity reduction
- Flaccid skin

*This treatment solution contains **Asiatic Spark Extract** which significantly increases type 1 collagen and cell layer fibronectin. It increases fibroblast proliferation by stimulation of cell migration from the surrounding tissues and/or the expression or activation of some growth factors, resulting in a firming of the skin.*

***Asiatic Spark Extract** increases blood supply by reducing the permeability and increasing the resistance of blood capillaries to the area, with an anti-inflammatory effect and antimicrobial properties.

***Hedera Helix** has a decongesting, as well as toning effect, and also acts as a penetrating medium. It has anti-fungal, anthelmintic and molluscicidal properties. It helps boost blood circulation, and also tones and tightens the skin, while helping to reduce oedema, removing waste products and fatty build-ups.

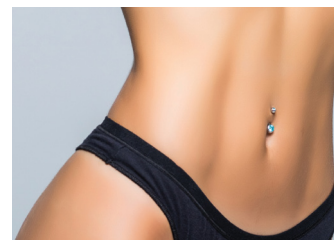

***Melilotus** (sweet clover) contains high level of catechin and cinnamic acid as the phenolic acid and coumarin compounds. It has anti-inflammatory effects and exerts its antioxidant activities via decreasing nitric oxide, MDA, and increasing superoxide dismutase. It stimulates micro circulation and fat cell metabolism.

ESTILAD PPC

ESTILAD PPC is a sterile treatment solution ideal for reducing adiposity from any area of the body.

PRESENTATION	10 ampoules x 5 ml, 50 mL, 1.69 fl oz
INGREDIENTS	Phosphatidylcholine and Sodium Deoxycholate
APPLICATION	Apply on clean and dry skin and massage in until completely absorbed, or via virtual meso, skin needling, transdermal techniques.
FORMULATION	Sterile professional solution, WFI and Osmolarity Balanced.

INDICATIONS

- Adiposity reduction
- Treating cellulite

Estilad PPC is a sterile, professional treatment solutions indicated for adiposity reduction.

***PPC** contains two of the most powerful ingredients for lipolysis, **Phosphatidylcholine and Sodium Deoxycholate**.

***Phosphatidylcholine** is a choline based phospholipid which stimulates lipid breakdown, mobilization and elimination.

***Phosphatidylcholine** is an enzyme produced by the body and is a major component of all cell membranes and lipoproteins that circulate in the blood. It plays an important role in intra and extracellular metabolic transport by controlling what goes in and out of the cell. It activates lipase, reducing triglycerides synthesis and increases cholesterol transport.

***Sodium Deoxycholate** is the the sodium salt of deoxycholic acid, an ingredient frequently used in mesotherapy injections to break up fat cells, potentially treating cellulite. Deoxycholic acid targets adipose fat cells, by inducing lipolysis, rupture and cell death among adipocytes.

REJUVENATES THE SKIN AND REMOVES WRINKLES AND PIGMENTATION

ESTILAD STIMULATOR

Welcome to the forefront of professional skincare with **Estilad Stimulator**, an advanced device meticulously crafted for exclusive professional use. Engineered to seamlessly integrate with Estilad mesotherapy solutions, this innovative device sets a new benchmark in skincare excellence.

Driven by state-of-the-art microchip technology, Estilad Stimulator ensures precise and effective delivery of mesotherapy solutions deep into the skin's layers. By optimizing the absorption of active ingredients, it maximizes their potency in addressing diverse skin concerns and rejuvenating the complexion.

Experience the versatility and efficacy of Estilad Stimulator as it harmonizes effortlessly with a spectrum of Estilad mesotherapy solutions. Whether targeting hydration, firmness, brightness, or other specific skincare needs, Estilad Stimulator supports comprehensive treatment protocols tailored to individual client goals.

ADVANTAGES

1. An advanced device engineered exclusively for professional use
2. Designed to integrate seamlessly with all Estilad mesotherapy solutions.
3. Crafted with state-of-the-art microchip technology.
4. Embrace a device that embodies precision, efficacy, and versatility, empowering you to achieve optimal skincare outcomes with every application

APPLICATION

1. Prepare the Cartridge: Open the disposable cartridge bag and connect the nano chip to the liquid bottle. Insert the assembled cartridge into the device inlet.
 2. Install the Fix Ring: Securely install the fix ring part onto the device.
 3. Power On: Press and hold the ON/OFF button for 2 seconds to turn on the device.
 4. To switch between different gears, simply click the ON/OFF button.
- Treatment: Once the device is powered on and set to the desired gear, you can begin your skincare treatment.
5. Power Off: After completing the treatment, press and hold the ON/OFF button for 3 seconds to turn off the device.

PACKAGING

Host x1 pc

E-User Manual x1 pc

Fixed Ring x1 pc

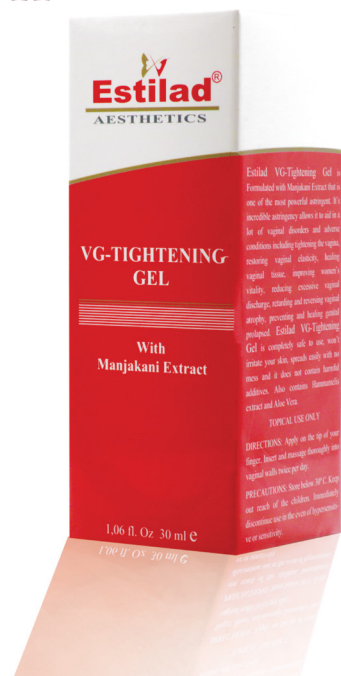

Cartridge x1 pc

Power Line(Type C) x1 pc

Machine box x1 pc

ESTILAD VG TIGHTENING GEL

is formulated with **Manjakani Extract**, one of the most powerful astringents available. Its incredible astringency allows it to aid in many vaginal disorders and adverse conditions including tightening the vagina, restoring vaginal elasticity, healing vaginal tissue, improving vaginal vitality, reducing vaginal discharge, preventing and reversing vaginal atrophy, and healing genital prolapse.

***Manjakani Extract** natural astringent properties help restore health, tone and vigour to the vagina. It firms and tightens the muscles of the vaginal wall, improving both muscular tone and elasticity while also reducing that annoying vaginal discharge that can cause bad odour.

***Aloe vera** provides softness and elasticity and **Hamamelis Extract**

KEY INGREDIENTS: Manjakani Extract, Infectoria Gall Extract, Arginine, Hamamelis Virginiana Bark/Twig Extract.

PACKAGING: Gel in airless pump container, 30ml, 1.01 fl oz

ESTILAD MOISTURIZING STEM CELL SERUM

is a highly concentrated serum, with Hyaluronic Acid for a deep moisturizing, penetration and unmatched rejuvenation & hydration level of the skin.

Moisturizing Stem Cell Serum is cosmetic treatment suitable for all skin types. Helps prevent skin dryness and minimize the signs of ageing.

USAGE: Apply daily preferably in the morning. Apply few drops on face, neck and chest previously cleansed, massaging gently until fully absorbed.

Formulated with **Argireline(Polypeptide BTX effect)**, **Citrustem**, with stem cells obtained from oranges and **Marine Collagen**, **Estilad Moisturizing Stem Cell Serum** works perfect against fine lines, wrinkles while it restores skin elasticity.

KEY INGREDIENTS: Aloe Barbadensis Leaf Juice, Citrus Aurantium Dulcis, Sodium Hyaluronate, Hydrolyzed Collagen, Phospholipids, Glycin Soja Seed Extract, Sphingolipids, Acetyl Hexapeptide-8.

PACKAGING: Airless pump container 30ml, 1.01 fl oz

ESTILAD ANTI-AGEING STEM CELLS SERUM

is a highly concentrated serum, with Hyaluronic Acid and three polypeptides, all aiming to eliminate the appearance of unwanted wrinkles and fine lines.

Supplementary cosmeceutical treatment to prevent and treat the signs of skin ageing especially facial expression lines.

USAGE: Apply daily preferably at night.

Apply few drops on face, neck and chest previously cleansed to prevent and treat the appearance of fine lines and wrinkles.

***Argireline** the ingredient behind the muscle relaxing effect, also known as BTX.

***Citrustem** an active ingredient containing Stem Cells found in oranges. Rejuvenates the skin and fights against wrinkles while it tones the face and improves firmness.

***Nature Cells Stem Cells** found in grapes for an antioxidant effect. Stem Cells obtained from resveratrol and catechin contents.

KEY INGREDIENTS: Prunus Amygdalus Dulcis Oil, Citrus Aurantium Dulcis, Callus Culture Extract, Acetyl Hexapeptide-8, Sodium Hyaluronate, Vitis Vinifera Callus Culture Extract.

PACKAGING: Airless pump container, 30ml, 1.01 fl oz

ESTILAD WHITENING CREAM

is formulated with Chromabright, designed to constrain tyrosinase activity.

USAGE: Apply Whitening cream evenly in the areato be treated twice a day for at least 6-8 weeks. In the treatment of hyper-pigmentation, it is advisable to reduce solar exposureand use maximum photo-protection. Once the spots have been attenuated or have disappeared , it is advisable to apply total SPF from the first few days to avoid its reappearance.

In order to see immediate results on the skin, **Estilad Whitening Cream** incorporates interference pigments. Interference pigments are microscopic mirrors spread along the surface of the skin when cream is applied.

KEY INGREDIENTS: Aqua, C12-15 Alkyl Benzoate, Caprylic/Capric Triglyceride, Ethylhexyl Isononanoate, Cetyl Alcohol, PEG-20 Methyl Glucose Sesquistearate, Methyl Glucose Sesquistearate, Phenoxyethanol, Dimethylmethoxy Chromanyl Palmitate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Mica, Titanium Dioxide, Bisabolol, Imidazolidinyl Urea, Disodium EDTA, Ethylhexyl Glycerin

PACKAGING: Airless pump container 50ml, 1.69 fl oz

ESTILAD SKIN BOOSTER STEM CELLS SERUM

is a skin brightening serum that stimulates the production of collagen and elastin.

Skin Booster Serum is a cosmeceutical treatment to brighten and tone skin and combat the signs of photo-ageing.

USAGE: Apply daily preferably at night. Apply few drops on face, neck and chest previously cleansed, massaging gently until fully absorbed.

Contains active ingredients with a major role in this process:

- ***AA2G Vitamin C** intensifies skin luminosity
- ***Ronacare** innovative active ingredient
- ***Celldetox** extends the properties of **Estilad Skin Booster Stem Cells Serum**
- ***Citrustem** fights against wrinkles, rejuvenates the skin and restores skin

KEY INGREDIENTS: Propanediol, Ascorbyl Glycoside, Glycerin Ammonium Acryloyldimethyltaurate Copolymer, Phenylethanol, Ethylhexylglycerine, Citrus Aurantium Dulcis, Callus Culture Extract/

PACKAGING: Gel in airless pump container, 30ml, 1.01 fl oz

ESTILAD EYE CONTOUR STEM CELLS SERUM

is a special formula created to aim three significant targets, fights against wrinkles around the eyes, dark circles and under eye bags.

Eye Contour Serum is a cosmeceutical treatment to prevent and treat eye bags, dark circles and crow's feet. Indicated for all skin types.

USAGE: Apply daily on the skin of eye contour previously cleansed, massaging gently until fully absorbed.

***Citrustem Stem Cells** found in oranges, works perfect on diminishing wrinkles while it improves skin elasticity.

***Legactif** active ingredient found in Estilad Eye Contour Stem Cell Serum. Concentrated with

***Ruscus and Citrus**, main target to reduce blue discoloration caused by dark circles.

***Matrixyl Synthe 6** smoothens wrinkles having BTX effect, relaxes immediately the skin around the eyes while giving a pleasant cooling sensation.

KEY INGREDIENTS: Sodium Hyaluronate, Caffeine, Citrus Aurantium Dulcis, Callus Culture Extract, Ruscus Aculeatus Root extract, Citrus Limon Peel Extract, Solidago Vigeurea Extract.

PACKAGING: Airless pump container 15ml, 0.51 fl oz
